# PHOTO PERMISSION FORM

## ENVIROTHON ADVISORS:

The Maine Association of Conservation Districts is asking advisors to notify all students that we would like to use photos taken at Envirothon events in local newspapers, event posters and District news letters. In order to do this however, we need written permission.

Accordingly, do you have signed release forms for your team members on file at their school that would allow us to use photograph of the students and advisor for possible publication in local newspapers, event posters and District newsletters? The students that would be allowed to be photographed are listed below. Any student not listed will not be photographed except from the back.

I, \_\_\_\_\_, do hereby acknowledge that individuals working at any of the Envirothon events, regional or state, have permission forms on file at the school for the below students/advisor to be photographed. Photos may be used in local newspapers, event posters and District news letters as deemed necessary:-

\_\_\_\_\_  
Envirothon Advisor/School Representative

Students with permission to be photographed (please print legibly):

TEAM A

TEAM B
